VIRTUAL NATIONAL CHAMPIONSHIPS 2021

Like all things, this year’s Virtual Nationals will look a little different due to the cancellation of the US Jr. Cup series. We hope that everyone will enjoy this year’s event, albeit it taking on a different format. We are extremely fortunate to be participants in a sport that has been able to thrive given the current circumstances in our world!

This year, ANY U10, U12, and U14 athlete with a current paid-athlete membership may submit a video (see video submission guidelines).

This year Virtual Nationals will focus on the technique of the jump, and each video will receive checkmarks for each element versus traditional numerical judges scores. The elements of technique that will be reviewed include the inrun, take-off, and flight.

As in previous years, each age group will have a compilation of all videos submitted.

**NEW this year: in addition to your video submission, each athlete is required to submit a statement about their favorite moment during this year’s winter season.

*Disclaimer: In the case that there are too many videos to judge, due to no qualifying criteria, submissions will be arranged in alphabetical order to celebrate jumps taken over the course of our winter season.

Videos should be of skiers on their age-appropriate hill. They are as follows:
- U10: 10-20M
- U12: 15-30M
- U14: 30-50M

NOTE- the Virtual Championships are an imperfect measure of ability and intended to foster learning and community and not serve as the ultimate arbiter of who’s the best in the nation.

Good luck!
